

# All the Right Moves – Norway

**Britannia**

Removals. Storage and International Shipping

## Welcome To Britannia In Norway

### Britannia in Norway

For many years Britannia has been providing an excellent door to door shipping and removal service to Norway, and can either transport your effects by shared load (groupage) or by sole use container load. Household and personal effects can be transported to Norway in various ways; overland by road van, by sea containers or by air.

### Importing Personal Effects

Norway is outside the EU and therefore goods are subject to Norwegian Customs Regulations. Used household goods may be imported duty free provided you have owned them for at least 12 months prior to arrival, and that the owner has resided abroad for at least 12 months prior to importation date.

### Documentation

Documentation required should be merely a copy of your passport, and detailed inventory list in duplicate (Norwegian, English or German language only), and a completed Norwegian customs declaration form (RG-0124). Britannia will advise you of the requirements prior to your move.

### Prohibitions and Restrictions

In general it is in your interest not to import the following items:

- Firearms & ammunition
- Inflammable goods & substances
- Plants & plant material
- Foodstuffs, perishables or otherwise
- Narcotics and dangerous goods
- Offensive materials
- Alcohol & Tobacco

### Transit Times

Transit times can vary subject to the method of transport chosen, size of your consignment and the final destination. Britannia will advise you once this information is established.

### Computer Tracking

Through satellite and computer technology we are able to monitor the progress of your consignment.

### Bar Coding

All Groupage consignments will be bar coded before they are loaded into the shipping container. This will ensure that no items are left at origin.

### Domestic Pets

Britannia can recommend a specialised shipper of animals to assist you in sending your family pet(s) from home to home. They will coordinate all documentation and necessary veterinary procedures.

### Motor Vehicles

Motor Vehicles can be imported, however vehicles are subject to special regulations and import duties and taxes, which are approximately 105% of the current value of the vehicle.

### Useful websites
