Importing Goods To Greece

Importing Your Personal Effects

Greece and its islands have always been a popular European destination for UK citizens looking to move overseas. Consequently Britannia has been providing an excellent shipping service to this location for many years. Household and personal effects can be transported to Greece in various ways; overland by road van, by sea containers or by air.

Custom clearance/documentation

Greece is a full member of the EU, documentation required should be merely a copy of your passport but in some of the Islands they still ask for a copy of your rental agreement/house purchase document. Britannia will advise you of the requirements prior to your move.

Prohibitions and Restrictions

In general it is in your interest not to import the following items:

- Firearms & ammunition
- Inflammable goods & substances
- Plants & plant material
- Perishables or otherwise
- Alcohol, narcotics and dangerous goods
- Offensive material

Transit Times

Transit times can vary subject to the method of transport chosen, size of your consignment and the final destination. Britannia will advise you once this information is established.

Computer Tracking

Through satellite and computer technology we are able to monitor the progress of your consignment.

Bar Coding

All Groupage consignments will be bar coded before they are loaded into the shipping container. This will ensure that no items are left at origin.

Domestic Pets

Britannia can recommend a specialised shipper of animals to assist you in sending your family pet(s) from home to home. They will coordinate all documentation and necessary veterinary procedures.

Motor Vehicles

There are few countries outside the EU where it is practical or possible to send motor vehicles. Britannia will be able to guide you further on this.
